

AMERICAN HEALTHTECH SESSION LISTING

3R Management - Employee Portal

Web versus Mobile App experience, benefit administration - the employee experience, Certifications - maintaining my data via the portal and managing work/life - schedule and time off from the portal.

Target Audience: All

3R Management (Recruitment, Retention, Retirement) Roundtable

An opportunity to engage with likeminded individuals on topics related to payroll, time and attendance and human resources. This is a client driven forum. Topics may include, but are not limited to, W4 changes, EEOC and reporting.

Target Audience: Business Office/Financial

Clinical Form Documentation & Content Manager: Learn the Basics

Content Manager is essential to creating good clinical documentation in AHT. We will review the scheduling of the stock sets included, along with how to modify the documentation and scheduling at a basic level. This is part 1 of a 4-part series dedicated to Clinical Form Documentation.

Target Audience: Clinical

Clinical Form Documentation & Content Manager: Advanced

Content Manager lets you create organization-specific changes and clinical documentation specific to your preferences. This session will go beyond the basics of the stock set and dive into the creation and customization of your forms. This is part 2 of a 4-part series dedicated to Clinical Form Documentation.

Target Audience: Clinical

Clinical Form Documentation - How to Document

Part 3 of a 4-part series dedicated to Clinical Form Documentation, this session will show the benefits of scheduling and customization from the user perspective, and how they are applied in the staff workflow.

Target Audience: Clinical

Clinical Form Documentation - Clinical Decision Support

Clinical Decision Support allows your organization to prompt its staff into additional protocols based on documentation, resulting in evidence-based care. This is the 4th and final part of the series on Clinical Form Documentation.

Target Audience: Clinical

AMERICAN HEALTHTECH SESSION LISTING

Communication Center and the Health Care Process

The ineffective sharing of information can lead to inefficient processes, more costs, and poor patient care. Come hear first-hand from one of our clients how Communication Center helped eliminate intrahospital and interhospital communication obstacles from their facility. We'll also share how Communication Center can keep the care team in sync, remove the paper trail, and maximize your budget.

Target Audience: All

CPSIQ for AHT: Learning Today, Leading Tomorrow

Discover how CPSIQ can prepare and educate your staff today so they can become leaders tomorrow. Join us and learn how to register, search for always-updated content, access Release Notes earn Nursing CEUs and upload your own content!

Target Audience: All

Integrate, Initiate, and Engage with Financial Management

During this session, attendees will receive an introduction to CPSI's newest single solution, Financial Management. We'll share how Financial Management's suite of accounting products integrate with Thrive and AHT EHR products, as well as with our 3R Management Suite. Attendees will also be shown how to initiate processes through the use of workflows and receive a preview of the engagement tools included in Advanced Financial Reporting.

Target Audience: Business Office/Financial

Protect Yourself Against Ransomware - (Security Series Part I)

It's unfortunate that we have to have sessions that help protect you from cybercriminals, but it's our reality today. So let's get together to talk about all things ransomware – what it is, the impact it can have and, more importantly, how to protect, detect and recover from it. Part one of a two-part series.

Target Audience: Executive, IT Services

Safeguard Your Organization from Social Engineering - (Security Series Part II)

The second in our Security Series, this session will define social engineering, discuss a number of social engineering techniques (some obvious, others not so obvious) and, of course, offer ways to protect your organization from hackers. We'll also take a closer look at Phishing and ways to identify, protect against and report it.

Target Audience: Executive, IT Services

AMERICAN HEALTHTECH SESSION LISTING

Resident Care - Document & Task Management

Once you prepare for Resident Care and completed your transition, your organization will need to understand how to document, tools for documentation, tools for management of the tasks. This session will cover how to do those topics. It is best to attend the preparation and overview session prior.

Target Audience: Clinical

Resident Care - Preparation and Overview

Resident Care is the web replacement of LTC Smart Charting. This session will prepare you to make the conversion and provide an overview of features and functionality.

Target Audience: All

The Telehealth Explosion: Is it Here To Stay?

Telehealth rocketed to stardom during the pandemic when abrupt coding changes by CMS and other payers opened the floodgates last March. But will it last? Do patients like it? Will most physicians/providers continue it as part of their practice permanently? Join us for answers to these and other telehealth questions.

Target Audience: Business Office/Financial, Physician

Vision Session - Product Roadmap

Hear from AHT Product Management our vision for moving the clinical workflows of Resident Care, Orders Administration and MDS to the web — and why. We will cover each area and how we thought to improve the workflows from LTC in order to increase efficiencies in clinical documentation.

Target Audience: All

Web Orders Administration

AHT web conversion continues with bringing the Orders Administration workflow to the web. This session will cover the conversion and enhancements brought to the workflow for passing daily meds and management after.

Target Audience: Clinical
