GET REAL HEALTH SESSION LISTING

Care Management

Life goes on after a patient leaves the office. Through Care Management with Get Real Health providers and patients can partner from a distance to improve their health. In this session you will learn more about the Get Real Health tools and how together the tools can help you see your patients like never before.

Target Audience: Acute Nursing, Business Office/Financial, Clinical, Executive

Digital Front Door

Your patients and providers are faced with a confusing and time-consuming array of disparate platforms, portals and communication tools. The experience is inefficient, chaotic and unproductive for patients, providers and organizations alike. The Solution? Get Real Health's Digital Front Door. In this session you will learn how you can gain a 360 degree view of every patient with one seamless solution.

Target Audience: Physician, IT Services, Executive, Nursing

Get Real Health - Product Roadmap Reveal

In this session, you will hear directly from our product team all that you can expect to see with InstantPHR and CHBase in the upcoming year. It's pretty exciting stuff...if we do say so ourselves.

Target Audience: Executive, IT Services

International Presence in Patient Engagement

There is no better way to learn than collaborating with peers from other organizations. Join our roundtable event series where you can sit at the virtual table with other Get Real Health clients. This event will highlight three of our international clients, you will learn more about their specific use cases, portal implementation, and patient engagement strategies. Following these presentations is an open dialogue between presenters and all roundtable attendees to ask questions and discuss more. At the end of the session, every attendee will walk away with feedback and new ideas from others who leverage the same products in different ways.

Target Audience: Executive, IT Services

Introducing CHBase Unify

In a world where healthcare data is trapped in silos and insights are out of reach, individuals and organizations struggle to put the pieces together. Everywhere are poor outcomes, unnecessary costs, overworked professionals, and frustrated patients. The newest product from Get Real Health, CHBase Unify, allows large healthcare data holders to combine data from disparate data sources across the enterprise into a single point of connection for population health, analytics and patient engagement systems.

Target Audience: Executive, IT Services, Clinical, Financial

Maximizing MyCareCorner
